ABOUT EASTERN EDUCATION GROUP

Eastern Education Group are a leading provider of education in the East of England, serving learners from age five through to adulthood. We include primary schools, special schools (SEND), alternative provision, and post-16 institutions such as sixth form colleges and vocational centres.

Our reach is broad: whether students are aiming for academic qualifications, apprenticeships, professional development, or seeking support with learning differences, we provide high-quality, inclusive opportunities for all.

As a Group, we are driven by a commitment to outstanding education, not simply in terms of academics, but in ensuring that every learner's personal development, wellbeing, and future prospects are supported. With recent Ofsted "Outstanding" ratings across multiple provision types, we are proud of our success, but we also continuously seek improvement and adaptation as the educational landscape and community needs evolve.

Our Beliefs and Values

At the heart of Eastern Education Group are firmly held values that shape how we work, what we expect, and how we support both our students and staff:

- **Raising Aspirations:** We believe every individual has potential, and we aim to empower learners to aim high—to develop talents, skills and confidence to become the best version of themselves.
 - **Enabling Progression:** Education is a journey. We believe in seamless transitions at every stage—whether moving from primary to secondary, into further education, or into work—ensuring that the path forward is clear and accessible.
 - **Ensuring Inclusivity:** Every learner should have access to opportunities, regardless of background or need. We prioritise equality, diversity and removing barriers, especially for our learners with special or additional needs.
 - **Excellence in Support:** We don't see education as just teaching; we see it as whole-person development. From wrap-around support services to tailored interventions, we aim to ensure that each student is supported academically, socially and emotionally.
- **Innovation & Collaboration:** We believe in continual learning ourselves—seeking best practices, collaborating with employers, sharing expertise across our group, and being open to change that improves how we deliver education.
 - **Encouraging Prosperity:** We want to contribute to the wellbeing not just of our learners but of the communities we serve. This means aligning our education and training to the needs of local employers, helping students ready themselves for meaningful careers, and working in ways that support social and economic prosperity.
